Not Much Activity in Stocks-Prices Hold Steady-New Bank Opens. Dividend Declared.

BY I. A. FLEMING.

While there is but little demand at this time for loans on the stocks and bonds of local corporations, there is plenty of money available for would-be borrowers on this collateral, with generous treatment as to marginal re-

It would seem as if there were opportunities for turning banks' funds to good profit in carrying local securities even on these estimates.

The current rates on call loans are 5 per cent, practically to any one with the collateral, nor is there much shad-ing of the rate even to favorite bor-

Manipulation of War Shares Feature of Stock Market in Early Trading.

Bethlehem Steel and Crucible Steel Each Shows Gains Before the Closing.

NEW YORK, September 8 .- Manipulation of war shares was the featur of today's early trading. General Motors made an initial gain of 3 points 86, with gains of a point in others of only metal issue to record a gain, advancing 21/2 to 571/2, Railways were irregular, Reading's advance of a point to 1.51% soon being lost. Rock Island was heavy, losing 1% to 18%, probably 70% as a result of the withdrawal of ar important interest from further connection with the property. The local market derived no encouragement from London, where Americans manifester further weakness.

Reaction Comes in First Hour. Active selling set in before the en of the first hour, the decline having its origin in rumors of fresh interna tional complications. Stocks of the caliber of Union Pacific, Canadian Pa caliber of Union Pacific, Canadian Padefic, Southern Pacific and United States
steel sold under yesterday's iowest
guotations, and general heaviness prevailed in other parts of the list. Before noon attempts were made to rally
the market by another advance in the
high-priced specialties, but the movement met with indifferent success,
trading becoming apathetic.

There was a marked falling off on
commission business, but this was neutralized by lighter foreign offerings,
although exchange on London remained
heavy.

Are those that do not fluctuate during dis-turbed conditions of the money or stock market. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "gilt-edge" investments. They do not depend upon the financial responsibility of indi-viduals or corporations for their stability and are exempt from taxation as personal property. We can supply such invest-ments in amounts from \$500 upward. Send for booklet, "Concerning Loans and In-vestments."
